APVMA Registration Number:	65227

BOUNCER is highly regarded for its broad spectrum use, low phytotoxicity on Turf & Plants, long residual and Tank mix compatibility with other water-based fungicides & Herbicides.

CONTROL OF INSECTS

Bouncer T&O MULTI-INSECTICIDE (Turf & Ornamental) is an all-in-one Multi-Insecticide with a broad spectrum of activity on over 30 common household and outdoor pests. Bouncer T&O is a 4th generation synthetic pyrethroid formulation which has been specifically developed for fast knockdown and control of insects in Turf & Ornamental Plants.

Bouncer T & O is a unique water based formulation containing no hydro-carbon solvents (low phytotoxicity) which can cause burning of plants and turf.

Bouncer T & O is non-staining, odourless and user friendly and has low vapour toxicity making it easy to handle and less irritating to users. Bouncer T & O is a non-restricted product and as such can be purchased by the general public for General Pest and residual Mosquito application.
