

DeIFORCE RESIDUAL INSECTICIDE

ADVANCED WATER-BASED FORMULATION

PRODUCT BROCHURE

PRODUCT DETAILS

Active Constituents:	Deltamethrin 10 g/L
Inert ingredients:	Water + suspending agents
Formulation type:	Water-based Suspension Concentrate
Insecticide Mode of Action:	Contact killing and residual
Target Pests:	Broad spectrum label for indoor and outdoor application
APVMA Registration Number:	63941

DeIFORCE is highly regarded for its ultrafast knockdown, broad spectrum use and proven history of safety by Professional Pest Managers worldwide.

CONTROL OF INSECTS

Delforce Residual Insecticide contains Deltamethrin 1% and high quality suspending agents and water as its carrier. The wetting agents used in combination with high quality surfactants enables the consistent micro-fine Deltamethrin particles to stick to both porous and non-porous surfaces far superior to competitor products. This combination creates a highly effective product for target insects such as spiders, ants, cockroaches, bedbugs and household flies.

Deltamethrin has a long history of safe use in household products in Australia and overseas and has relatively low mammalian toxicity and minimal environmental impact.

APPLICATION

TARGET PESTS			HOW TO USE
	<input checked="" type="checkbox"/> Bedbugs	<input checked="" type="checkbox"/> Carpet Beetles	See the label for directions to use and entire product label claims
	<input checked="" type="checkbox"/> Cockroaches	<input checked="" type="checkbox"/> Flies	
	<input checked="" type="checkbox"/> Spiders	<input checked="" type="checkbox"/> Mosquitoes	
	<input checked="" type="checkbox"/> Silverfish	<input checked="" type="checkbox"/> Fleas	
	<input checked="" type="checkbox"/> Bird Mites	<input checked="" type="checkbox"/> Quarantine Pests	
	<input checked="" type="checkbox"/> Timber Pests	<input checked="" type="checkbox"/> Ants	
	<input checked="" type="checkbox"/> Stored Product Pests		
	<input checked="" type="checkbox"/> Clothes Moths		
	<input checked="" type="checkbox"/> Borers		

PRODUCT FEATURES

- Ultra-fine consistent particles
- Rapid knockdown and kill
- AQIS approved for use in food storage areas
- Biodegradable
- No staining or odour
- Manufactured to ISO9001, GMP and quality assured by the regions leading formulator

Consistent Quality Products result in less re-claim calls and more PROFIT\$
